f) This product is designed for indoor use. If use outdoors, avoid contact with direct sunlight, rain or humidity, which could damage product.

Installation Instructions

1. Carefully remove product from packaging be sure not to cut any wires. Transformer (black housing with plug blades) may be located in a separate box.
2. Attach the light set connector to transformer by inserting the pins fully into the transformer and screw on the holding ring.
3. Unfold the provided stand, place it in the desired location and then gently place the twig tree into the stand.
4. Gently shape the branched into the desired position.
5. Plug transformer into wall outlet. The lights should come on. For indoor use transformer should be located in an indoor outlet box where the transformer connections can be protected from falling rain (see instructions on transformer for further information).

Troubleshooting Instructions

If lights do not work

a) Make sure lights are connected to the transformer. Make sure connectors are fully inserted into the transformer.

b) Make sure the transformer is plugged into a 120V AC outlet.

c) Make sure the outlet has power (check to see if any switches control the outlet).
